7.1.5 Green campus initiatives include:

The institutional initiatives for making the campus green are as follows:

- Restricted entry of automobiles
- Use of Bicycles/Battery powered vehicles
- Pedestrian Friendly pathways
- Ban on use of Plastic
- Landscaping with trees and plants

➤ Use of Bicycles/Battery Powered Vehicles

Students from nearby villages use bicycle to come to the college. They are encouraged for maximum use of bicycles for reducing both pollution and fuel usage and making the campus environment more clean. This effort is environment friendly and prevents pollution. Many students come from the city area and use frequently plying battery powered vehicles which are becoming more popular day by day. Private battery powered rickshaw can be seen very frequently near the campus which is used by the students.

➤ Pedestrian Friendly pathways

Pedestrian Friendly pathway have been made for walking of staff and students to travel safely and freely in the college campus.

➤ Ban on use of Plastic

Use of plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness programme is conducted among staff and students to prevent plastic from being used. The staff and students are informed to use steel or copper water bottles instead of plastic bottles. It helped in keeping the campus plastic free and also free from pollution.

➤ **Landscaping with trees and plants**

Landscaping not only enhances beauty and appearance but also inculcates aesthetic sense to younger generations. Thus it becomes necessary to landscape the campuses of educational institutes. The main aim of landscaping educational institutions is to control noise, storm, and dust and to provide shade and screen some ugly places with the help of plants. The college campus has innumerable trees and plants to make the environment pollution free to safeguard the health of all the inmates. The lawns and the trees provide shade and beautiful ambience. Always care is taken to develop and maintain green landscaping by trained gardeners and supervisor. Carbon dioxide neutrality is maintained on the campus by planting different varieties of trees and plants. Different trees shrubs, flowering annuals, etc. may also be properly labeled to enable students learn their names and develop knowledge.
